**APPENDIX I  
ORGANIZATION AND MANAGEMENT**

**University of Minho**

## **1. ECS GOVERNING BODIES, SUBUNITS AND COORDINATING BOARDS**

### ***ECS GOVERNING BODIES***

#### **The School's Council**

The School's Council is the collegial representative body responsible for management and general coordination of the School. The School's Council integrates the President of the School, who presides, and meets quarterly (the present composition is presented in point 2).

#### **The School Presidency**

The School Presidency integrates the President and the Vice-Presidents of the ECS and, as the Directive Board of the ECS, oversees the management of the School, meeting on a weekly basis. The present composition is: Cecília Leão (President); Joana Palha (Vice-President for Post-Graduation); Jorge Pedrosa (Vice-President for Planning and Research); Nuno Sousa (Vice-President for Pedagogical Activities).

#### **The Scientific Council**

The Scientific Council is responsible for the scientific policy for the ECS, namely in what concerns the general guidelines for the planning and development of research, teaching and extension activities and matters related to the recruitment and promotion of the academic staff (the present composition is in point 2).

#### **The Pedagogical Council**

The Pedagogical Council is responsible for defining and supervising the pedagogical policy of the ECS undergraduate and post-graduate degree programs (the present composition is in point 2).

#### **The Advisory Council of the School**

The present Advisory Council of the School (ACS) was nominated in 2011, meets every two years and its composition is as follows.

*UMinho/ECS Members :*

Rector of University of Minho (invited member) and the ECS Presidency (Cecília Leão, Joana Palha, Jorge Pedrosa and Nuno Sousa).

*External Members:*

Alistair Warren (University of Sheffield, United Kingdom); Arsélio Pato de Carvalho (University of Coimbra, Portugal); Fernando Lopes da Silva (University of Amsterdam, Holand); Joseph S. Gonnella (Thomas Jefferson University, United States of America); David Macfadyen (University of Edinburgh); Peter V. Scoles (Thomas Jefferson University, United States of America); President of *Administração Regional de Saúde do Norte Portugal (ARS-N), Portugal*; President of *Ordem dos Médicos, Portugal*

Invited External Members: Maria João Teixeira de Queirós (EUROTRIALS); Luís Portela (BIAL Foundation).

The external members have designated Prof. Fernando Lopes da Silva as the ACS Coordinator.

## **ECS COORDINATING BOARDS**

### **The Course Committees for Master and Doctoral Programs**

The Course Committees are coordinated by ECS Pedagogical Council. Their main responsibilities include the daily management of the courses, promoting the coordination of curricular units, seminars, internships and other activities within each degree, and the monitoring of the development of the degree programs proposing needed adjustments to the Pedagogical Council.

The ECS has four Course Committees: the Committee for the Integrated Master Degree in Medicine, the Committee for the Master Degree in Health Sciences, the Committee for PhD Degree in Medicine, including the MD/PhD program, and the Committee for the PhD Degree in Health Sciences, including the PhD Program in Health Sciences (applied).

### **The Coordination of Post-graduation**

The Coordinator of the Post-graduation (presently, Joana Palha, Vice-President for Post-graduation) oversees all the postgraduate activities within the ECS.

The coordinators of the different Post-Graduation Advanced Courses (International Post-graduate Program) are listed in Post-Graduation Report 2015-2016 (Supplementary Reports).

## **ECS SUBUNITS**

### **The ECS Scientific-Pedagogical Subunits: the Scientific Areas**

The Scientific Areas are the ECS organizational subunits, equivalent to the departments foreseen in the Statutes of the University of Minho, which constitute the basic cells of scientific-pedagogical organization and management of resources within each consolidated area of knowledge.

The ECS has four Scientific Areas, which are statutorily acknowledged: Biomedical Sciences, Pathology, Community Health and Clinics. The duties of the Scientific Areas are to coordinate the curricular development and delivery in the corresponding areas, and assure the implementation of the adequate educational strategies and methods. The Scientific Areas agglutinate and articulate the curricular areas of the Medical Curriculum promoting the articulation between them, thus guaranteeing the overall coherence of the curriculum, paying attention to and eliminating omissions or repetitions.

The present Scientific Areas Coordinators are: Fernando Rodrigues for Biomedical Sciences; Jorge Pedrosa for Pathology; Jaime Correia de Sousa for Community Health; Nuno Sousa for Clinics.

The Curricular Units and Modules of the Integrated Master Program in Medicine and the corresponding Coordinators are listed in point 3.

### **ECS Research Subunit: the Life and Health Sciences Research Institute (ICVS)**

The ICVS is the research centre incorporated in the ECS, a subunit according to the ECS Statutes, in which the scientific and technological development activities of the School are developed. The ICVS has its own governing bodies, according to the rules for research units integrated in the national system of Science and Technology, namely the Director (presently, Jorge Pedrosa), the Scientific Council, presided by the Director, that integrates all the PhD members of ICVS and the External Advisory Committee.
